OUR APPROVAL DEPARTMENT

Aside from the coins which we have in sufficient quantity to advertise in COIN TOPICS, our stock includes a varied selection of both inexpensive and rare coins. We are always pleased to send such coins on approval to a collector who has established credit with us. Those who have not sent us their credit ratings are invited to do so. We will accept a rating from your bank or one of the merchants with whom you deal.

While it is possible to form a worthwhile collection by buying coins unseen, we believe that a collector would rather examine a coin before adding it to his collection. Our approval system will enable you to do this. When you receive approval lots from us you are under no obligation to make a purchase. All we ask is that you report on the lot within seven days, promptly returning coins in which you are not interested.

CONDITIONS OF SALE

Each piece is guaranteed genuine. We have been careful not to overrate the condition of any coin. In instances where we have on hand only one or two pieces of the coins listed, the orders first received are filled. We cannot guarantee to supply others at the same price.

The condition of a coin is expressed as follows:

M=MINT—A new coin never in circulation.
V.F.=VERY FINE—From circulation but no signs of wear.
F=FINE. Slightest sign of wear but still an attractive piece.
V.G.=VERY GOOD—Somewhat worn but still desirable.
G=GOOD—Worn but type all clear.

POSTAGE

Unless otherwise stated, we pay the postage on all coins and books bought from us. Postage on the EASY DISPLAY SYSTEM is extra. Insofar as possible, all orders are filled on the day of receipt.

TERMS

Net cash in advance. We prefer to receive stamps in payment of orders for a dollar or less. Any items found unsatisfactory may be returned within five days. Make all remittances by bank check, postal or express order payable to Wayte Raymond, Inc. Do not send coin or currency by unregistered mail.

COINS OF THE WORLD

The Standard Catalogue of Twentieth Century Issues

Edited by

Wayte Raymond and Stuart Mosher

The most important numismatic publication of modern times. The gold, silver and minor coins of nearly two hundred countries, their colonies and dependencies are illustrated, and in each instance the average price among collectors and dealers is given.

This important book has been compiled from statistics gathered over a long period of years and will represent the first serious attempt to catalogue the coins of the twentieth century. Whenever possible the exact dates of the various denominations are given, as also are the mints at which the coins were struck. Hundreds of coins that have never been recorded or illustrated will appear in this publication.

The illustrations are all in half-tone and only the finest material and workmanship is being used in the production of the book.

The coinage period that is covered is the most interesting and perhaps one of the most important in history. The colonial expansion begun by Queen Victoria, the invention of the pantograph or reducing machine, and the monetary upheavals that occurred during and shortly after the World War have resulted in a wider and more varied field for the collector than ever before. With this standard catalogue of 20th century coins, the beginner will be able to collect and attribute foreign coins without any difficulty. Aside from being necessary to the coin collecting fraternity, it will be invaluable to libraries, schools and other educational institutions.
